Course Design

1. Course design is going to consist of Hoopers, Barrels and a very light use of Tunnels. We would like to see a minimal amount of tunnels in the class, but they are a great obstacle to use for keeping the course design interesting, so you should expect to see them on course.
2. There will continue to be the option of a 15 point run if the run is completed from behind the extra point line, same as the current Hoopers class.
3. The hoop circle will continue to be a staple in the class, but it will be modified quite a bit, as other obstacles will be able to substitute for the hoops. Such as a barrel or tunnel.
4. Standard Course time will start out fairly lenient, until we have a years worth of dogs runs to base the SCT off of real world data, and then it will get updated to reflect the dogs currently competing.
5. All normal NADAC rules will apply.
6. A course design examples is posted below
